Philippines

Summary

A front-end web developer with 3+ years of experience who is passionate about responsive web design, mobile-first approaches, and automated testing. Build an application using HTML, CSS, and JavaScript, and provide a thorough understanding of a front-end framework like Angular. I am self-motivated and loves to work with a team that gives feedbacks and critiques to enhance and expand my current skills.

Education

Bachelor of Science in Information Technology (SY: 2018 - 2019)

Bukidnon State University Alubijid Satellite Campus
Alubijid, Misamis Oriental, Philippines
